BotaniGard® MAXX

BotaniGard MAXX is a biologically-based insecticide (combination myco- and botanical insecticide) with multiple modes of action for a quick knock-down and control of thrips, spider mites, weevils, whiteflies and more.

Active Ingredients: Natural Pyrethrins
Beauveria bassiana strain GHA

FOR TECHNICAL ASSISTANCE CALL (888) 335-9044

If you are a professional grower and have a question, or if you just want to discuss a particular issue, **contact us.**

Our team is ready to discuss your crop-specific issues or any questions you have about our products. We will provide you with rapid, comprehensive and personalized support.

SAFE. PROVEN. EFFECTIVE.

For 25 years BioWorks has been helping customers in the horticulture and specialty agriculture markets to develop effective and efficient programs using products that are safe, proven and effective.

We are continuously reinventing the way our customers work by providing biologically based, integrated, safe solutions and programs.

INSECT CONTROL

BotaniGard MAXX is a biologically-based insecticide for the control of thrips, spider mites, weevils, whiteflies and more. An excellent rotational partner with BotaniGard.

QUICK KNOCK-DOWN

BotaniGard MAXX can be used alone or in tank mix combinations. BotaniGard MAXX acts by contact. When insect pressure is high, use BotaniGard MAXX for quick knock-down, then follow up with typical BotaniGard use.

DUAL MODES OF ACTION

The interaction between *Beauveria bassiana* strain GHA and natural botanical pyrethrins is synergistic. This combination results in multiple modes of action and pest control results comparable to those obtained when using chemical alternatives.

BIOLOGICALLY BASED (COMBINATION MYCO- AND BOTANICAL INSECTICIDE)
